<p>Hi, I’m Stephen Sykes from the City of Beaverton’s Solid Waste and Recycling Team. I’d like to talk with you about automated garbage collection in the City of Beaverton Because, we thought you would like to know.</p> 	<p>TRANSITION Zoom into bust shot</p>
	<p>TRANSITION into slide show</p>
<p>In the City of Beaverton most residents are serviced using an automated truck. Automation increases collection efficiencies and reduces injuries. Automated garbage service means a truck with a mechanical arm will grab your wheeled cart and dump your garbage into the truck.</p>	<p>Movie – automated truck picking up a roll cart on a street</p>
	<p>TRANSITION into slide</p>
<p>When you set up garbage service, you are supplied with a wheeled cart that is compatible with the garbage truck servicing your home.</p> <p>It is important that you place your automated carts on the curb and (not in the street) before 6 am on your day of collection. Please set your containers at least 5 feet away from your yard debris cart and recycling bins and away from trees or other overhead obstacles. Your cart should be placed so that its front is facing the street.</p>	<p>Movie – different angle of a truck lifting its arm and hitting a tree perhaps or showing overhead obstacles.</p>
	<p>TRANSITION into slide</p>
<p>Automated garbage service benefits the customer because:</p> <ul style="list-style-type: none"> • It’s easier to roll your materials to the curb • The carts have permanently attached lids that won’t blow away 	<p>JPEG - Display text and bullets to the left.</p>

<ul style="list-style-type: none"> • New carts are more animal resistant and contribute to a clean and positive neighborhood appearance • The carts are more effective at reducing odors
