If a fee-in-lieu of construction a facility was permitted during land-use approval, please note any of the following that apply. (USA R&O 2007-020 Section 4.05.2a) (Attach copy of justification letter from the Professional Engineer or Architect, if applicable.)

(check all that apply)

[] The site topography or soils makes it impractical or ineffective to construct an on-site facility.

[] The site is small compared to the development plan, and the loss of area for the on-site facility would preclude the effective development.

[] There is a more efficient and effective regional site within the sub-basin that was designed to incorporate the development or is in the near vicinity with the capacity to treat the site.
